Band Biography

Dennis, Jan and Werner form El Camino in the beginning of 2006 to live out their passion for Heavy Rock with Stoner influences. The side project turns into an ambitious band...

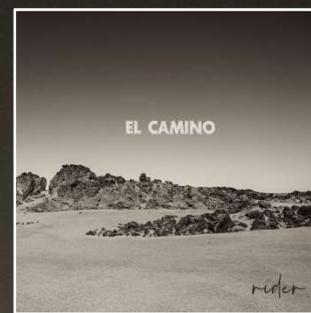

2008 – Hit The Road

2010 – Poisoned Blood

2014 – Black Fuel

2019 – Rider (Promo)

...that, after two line-up changes, publishes its debut *Hit The Road* in November 2008 and earns some critical acclaim: "If this doesn't make you groove, it's your own fault." (heavyhardes.de)

Their sophomore album *Poisoned Blood* is launched in 2010 and gets some good reviews as well: "Fact is that this quintet with their meaty, mighty riffs, put into practise uncompromisingly and relentlessly, should be of highest interest for all fans of honest rock music." (metal.de)

Their third album *Black Fuel* features even more melodies and forceful riffing. It is released on the 10th of May, 2014 and "rocks massively." (powermetal.de)

With their current Promo-Single "Rider", El Camino give a glimpse at their next album: a thick portion of Stoner and Doom makes the new songs more colorful, rougher and catchier.
